By Superfast Ferry from Continental Europe to Rosyth
For timetables and fares visit www.superfastscotland.com.

We are only 5 minutes drive from the port of Rosyth, the cruise liner and ferry port for Edinburgh.

From Rosyth, follow the signs for North Queensferry and Deep Sea World along the B981 and drive into our village then follow the *In the Village* instructions below.

By Car from the South and From Edinburgh airport
Edinburgh International Airport is a straightforward 20-25 minute drive. From the airport, follow the signs for the Forth Road Bridge. After crossing the bridge, take the first exit and follow the signs for **North Queensferry** along the B981.

If you don't come by car, there is a frequent shuttle bus service from Edinburgh Airport to Ferrytoll Park and Ride (the nearest stop for North Queensferry). Please let me know in advance if you would like me to come and pick you up.

By Car from the North

Travel South on the M90, exit at junction 1 for North Queensferry. Follow the signs to North Queensferry and for Deep Sea World until you are in the village, then follow the directions below.

By Train

From Waverley Station in Edinburgh, frequent services run directly to North Queensferry, an 18 minutes journey. Visit [National Rail](#) website for times. We can come and pick you up from the train station.

By Bus from Edinburgh

From Edinburgh Bus Station, buses leave regularly for the Ferrytoll Park and Ride. The journey takes 20 minutes to an hour depending on the time of day and the traffic. We can pick you up from Ferrytoll Park and Ride if you call us beforehand.

In the Village

Follow the signs for Deep Sea World until you reach the Ferrybridge Hotel on your left. **Stay on the same main road** until you see the Albert Hotel.

(Do not drive under the Rail Bridge. If you get to the entrance of Deep Sea World, you've not followed the main road and gone 100 metres too far.)

At the T- junction by the Albert Hotel turn left into Battery Road towards the Rail Bridge.

About 50 meters further on there is a wide turning area and a lane running up on the left, parallel to the rail bridge. (It is to the left of Battery Road)

Take that lane and go to the very last cottage, you've found us.

(If you find yourself in a public car park, you have missed the turning for the lane but it doesn't matter, we are next door.)
